(54) Title: **CONFIDENTIAL INFORMATION SHARING SYSTEM**

(57) Abstract: Improved confidential information sharing systems, including a first plurality of data collection units (108), each collecting confidential data regarding a second plurality of individual entities, a third plurality of data consumer units which intermittently require confidential data collected by ones of the first plurality of data collection units regarding ones of the second plurality of individual entities (108 & 110); and at least one confidential data sharing interface (102 & 106), responsive to a requirement from one of the third plurality of data consumer units for confidential data from one of the first plurality of data collection units (100) regarding one of the second plurality of individual entities (110), to pull confidential data from an appropriate one of the first plurality of data collection units (100) regarding a specific individual entity (110).

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
